

# Declaration Of Decontamination

Please contact us if you require more information.

## Decontamination Queries:

NATEX Measurement Solutions  
Service Officer  
[service@natex.net.au](mailto:service@natex.net.au)

---

## Please fill in the Declaration of Decontamination form.

Please remember to sign the document – instruments will not be booked in or work commenced until we receive a signed copy of this Declaration of Decontamination form.

---

## Responsibilities

It is the responsibility of the customer to:

- Remove all substances which are dangerous for human health from the instrument
- Ensure the instrument is safe for our service personnel to handle.
- Choose the appropriate decontamination method depending on what substances the instrument has been exposed to.

Why Instruments have to be cleaned

- Product must be shipped under corresponding regulations.
- Safety of the service personnel must be secured

---

## Instrument decontamination

For biological substances, the most commonly used methods are:

- An approved decontamination solution such as Decolab, Virkon, Liquinox, etc.
- Autoclaving, please refer to manufacturer recommendations.
- Cleaning with 70% ethanol.

For radioactive substances:

- The instrument must be free of any radioactivity and must be accompanied by a declaration.

For chemical substances:

- The instrument must be cleansed thoroughly of all chemical and hazardous material.

Please itemise the decontaminated equipment below

	Product Make / Model	Serial Number
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

**Please indicate if listed equipment has been used with any of the following:**  
*(Please tick)*

- Bio-hazardous materials
- Radioactive specimens
- Hazardous chemicals or solvents
- Other *(Please specify):* .....
- .....
- .....
- .....

**DECLARATION:** I/We certify that these instruments have been carefully cleaned and decontaminated from bacteriological, chemical or radioactive contamination or have not been exposed to any hazardous liquids. Therefore I/we certify that these instruments are safe for human handling. Upon request I/we agree to give the necessary information for proof a decontamination method has been used.
