

Managed Equipment Services

NATEX Measurement Solutions offers you a single point of contact for all your instrumentation and measurement needs. We can supply you the tools required to perform your job, and also take care of your calibration and testing requirements by utilising our relationships within the metrology community.

As a full-service provider we are the single point of contact for all our customers calibration, service and repair needs. We are vendor independent and able to support all manufacturers and instrument types through our metrology network.

Coordinating an organisations complex instrumentation and needs requires a deep understanding of many industries, laboratory capabilities, scopes of accreditation and capacity that benefits all our customers. Let us manage your equipment so you can focus on your core business saving you significant time, money and administration costs.

With our network of over 100 partner laboratories, you can be sure we can service all your measurement devices and brands.

Benefits

- Reduce logistical complexity and save time with one point of contact for all Testing and calibration needs.
- With our network of over 100 partner laboratories, you can be sure we can calibrate most measurement devices and brands.
- Lower costs by eliminating financial surprises and achieving economies of scale in calibration resulting in better pricing and terms.
- Improve operational performance through faster calibration turnaround time and increased asset usage.
- Secure accurate and consistent results for your devices over their entire life cycle
- Reduce unscheduled production or machine downtime, product and process quality issues, product recalls and rework.
- Ensure the ongoing accuracy and availability of all your test assets.

Our capabilities cover a wide range of disciplines including Electrical DC/LF and RF/Microwave, Dimensional, Torque & Force, Pressure & Vacuum, Mass/Weight, Temperature, Humidity, Flow, Fiber Optics, Acoustics, Nuclear Safety and more.

We service all the major brands and manufacturers, such as Keysight, Fluke, Tektronix, FLIR, Budenberg, Honeywell, Amtek, Norbar, Mitutoyo, Brüel & Kjær, Kyoritsu, Horiba, Dräger Safety, Mettler Toledo, Anritsu, Testo, Hach and so much more. We are able to support all manufacturers and instrument types.

Our people, products and processes, have been the hallmarks of our trusted relationships with our clients, who have come to depend on us as their business partner of choice. If you're interested in having NATEX manage your instrumentation needs please [contact us](#) today!

Calibration & Testing Service

NATEX Measurement Solutions offers you a single point of contact for all your instrumentation and measurement needs. We can supply you the tools required to perform your job, and also take care of your calibration and testing requirements by utilising our many vendor relationships within the metrology community.

Regular calibration is essential to keep the instrumentation controlling your critical processes compliant and within specifications. Reduce your risk and take measurements with confidence.

As a full-service provider we are the single point of contact for all our customers calibration, service and repair needs. We are vendor independent and able to support all manufacturers and instrument types through our metrology network. Coordinating an organisations complex instrumentation and needs requires a deep understanding of many industries, laboratory capabilities, scopes of accreditation and capacity that benefits all our customers. Let us manage your equipment so you can focus on your core business saving you significant time, money and administration costs. With our network of over 100 partner laboratories, you can be sure we can service all your measurement devices and brands.

Our capabilities cover a wide range of disciplines including Electrical DC/LF and RF/Microwave, Dimensional, Torque & Force, Pressure & Vacuum, Mass/Weight, Temperature, Humidity, Flow, Fiber Optics, Acoustics, Nuclear Safety and more.

We service all the major brands and manufacturers, such as Keysight, Fluke, Tektronix, FLIR, Budenberg, Honeywell, Amtek, Norbar, Mitutoyu, Brüel & Kjær, Kyoritsu, Horiba, Dräger Safety, Mettler Toledo, Anritsu, Testo, Hach and so much more. We are able to support all manufacturers and service all instrument types listed below.

Electrical & Electronic Instrumentation

Amp Meters	Flash Point Testers	Megger	Process Calibrators
Appliance Testers	Frequency Generators	Micro-Ohm Meters	RCD Testers
Cable Testers	Frequency Meters	Multimeters	Resistance Boxes
Calibrators	Hi-Pot Testers	Oscilloscopes	Signal Analysers
Clamp meters	Insulation Testers	PAT Testers	Signal Calibrators
Current Supply	kW Meters	Power Analysers	Testing and Tagging Units
Digital Multimeters	LCR Meters	Power Factor Meters	Tong Testers
Earth Testers	Loop Calibrators	Power Meters	Voit Meters
Energy Meters	mA Callbrators	Power Supplies	Voltage Supplies

RF Measurement

Frequency Counters	Network Analysers	RF Power Meters	Site Masters
Frequency synthesizers	RF Frequency Analysers	Signal Generators	Spectrum Analysers
Function and Arbitrary Waveform Generators	Signal Generators and Swept Generators	Attenuators	Oscilloscopes

Optical & Transmission Testers

OTDRs (Optical Time Domain Reflectometers)	OSA (Optical Spectrum Analysers)	Multi-Wavelength Meters	Variable Optical Attenuators
Optical Fusion Splicers (Fitel, Fujikura and Sumitomo)	Fibre Optic Cleavers	Fibre Inspection Equipment	PET, RFL, TDR and Cable locators
Ethernet Testers (10, 100, 1000Mbps and 10Gbps)	SDH/SONET Testers (155Mbps to 10Gbps)	PDH/ISDN Testers (2Mbps to 140Mbps)	Copper Qualifications Testers

Scientific & Analytical Equipment

Analytical Scales and Balances	pH Meters	LUX Meters (Light Meters)	Sound Level Meters
Anemometers	Turbidimeters	Water Quality Meters	Moisture Analysers
Conductivity Meters	Spectrophotometers	Pipettes	Hydrocarbon Analysers

Gas Detection, Monitors and Sensors

Ammonia Detectors (NH ₃)	Confined Space Monitors	Tunable Diode Laser Spectrometry	Electrochemical Sensor Replacements
Refrigerant Leak Detectors	Ethylene Detectors (C ₂ H ₄)	Hydrogen Sulfide Detectors (H ₂ S)	Fixed Gas Monitoring Equipment
Carbon Dioxide Detectors (CO ₂)	Emission Monitors	Methane Detectors (CH ₄)	Hydrocarbon Monitors
Carbon Monoxide Detectors (CO)	Gas Transmitters	Oxygen Detectors (O ₂)	

Temperature and Humidity

Autoclaves	Humidity Meters	IR Thermometers	Temperature and Humidity Transmitters
Data Loggers	RH Meters	Temperature Indicators	Temperature Calibrators
Dry Heat Ovens	RTD Indicators	Temperature Water Baths	Temperature Controller / Switches
Immersion Thermometers	RTD Probes	Thermocouples	Thermohydrograph Units
Glass Thermometers	Incubators	K-Type Thermometers	Pyrometers

Pressure Equipment

Pressure Gauges	Magnehelic Gauges	Pressure Relief Valves	Transmitters
Switches	Differential Gauges	Chart Recorders	Vacuum Gauges
Transducers	Manometers	Controllers	Dead Weight Testers
Digital gauges	Backflow Test Kits	Pressure Indicators	

Weighing, Loadcells and Scales

Compression Testers	Force Indicators	Pinch Gauges	Standard Masses
Digital Force Indicators	Hand Dynamometers	Pull Testers	Tension Testers
Force Gauges	Load Cells	Industrial Scales	

Dimensional & Distance

Bore Micrometers	Gauge Block Sets	Laser Levels	Steel Rules
Dial Indicators	Hard Gauges	Measuring Tape	Theodolites
Dial Test Indicators	Height Gauge	Micrometers	Ultrasonic Thickness Gauges
Depth Gauges	Inside Micrometers	Outside Micrometers	Vernier Calipers
Dumpy Levels	Laser Distance Meters	Paint Thickness Gauges	

Torque Equipment

Torque Wrenches	Torque Meters	Torque Sensors	Torque Transducers
Torque Drivers	Digital Torque Wrenches		

Insulated Electrical Safety Equipment

Insulated Gloves (Class 00 – 4)	Low Voltage Switchboard Kits	High Voltage Rescue Kits	Portable Earthing Devices
Insulated Mats	Live Line Sticks	Modleworks	Fuse Pullers
Insulated Tools	Proximity Detectors		

Radiological Equipment

Dose Rate Meters / Survey Meters	Tritium Monitors	Neutron Monitors	Personal Electronic Dosimeters
Contamination Monitors: <ul style="list-style-type: none"> Cobalt-60 (⁶⁰Co) Caesium-137 (¹³⁷Cs) 	Contamination Monitors: <ul style="list-style-type: none"> Americium-241 (²⁴¹Am) Chlorine-36 (³⁶Cl) 	Contamination Monitors: <ul style="list-style-type: none"> Iodine-129 (¹²⁹I) Carbon-14 (¹⁴C) 	Contamination Monitors: <ul style="list-style-type: none"> Strontium/Yttrium-90 (⁹⁰Sr/⁹⁰Y) Plutonium-238 (²³⁸Pu)

If you require more information regarding our services or can't find your instrument above please [contact us](#) today.
